FOR RELEASE: IMMEDIATE

July 19, 2011

**SUBJECT:** "BIODIVERSITY LIVE"

**CONTACT:** JAN MUELLER, SUPERVISOR

Journey to the ends of the earth in this multi-media presentation to discover the truly unique and sometimes strange life forms that inhabit our planet! A representative from the Organization for Bat Conservation will share some exceptional live animals during a special "Biodiversity Live" program. The program will be held at the Sterling Heights Nature Center on Wednesday, July 27 at 10:00 a.m. The live portion has been funded by a grant from Critter Catchers, Inc.\* Following the live presentation there will be a biodiversity related activity led by a staff member from the Sterling Heights Nature Center.

Registration is required. Cost is \$6 residents, \$9 non-residents. Registration may be done in person at the Sterling Heights Nature Center, Sterling Heights Parks & Recreation Center or online at [www.sterling-heights.net](http://www.sterling-heights.net) - Ref. #7002.604.

\*About Critter Catchers, Inc.: Founded in 2005, the Ortonville, MI based Critter Catchers, Inc. was formed by David Kugler, an Oakland University graduate holding a Bachelors of Science in Biology, and a Masters Degree in Environmental Engineering from Wayne State University. Critter Catchers provides wildlife control services in SE Michigan and specializes in humane bat removal and other attic pests. Visit their Website at [www.crittercatchersinc.com](http://www.crittercatchersinc.com) or call (248) 432-2712.
