BIOBLITZ: BATS!

BioBlitz: Bats **Tuesday, June 14, 2016 - 7:00pm to 10:00pm** Ages: Recommended for ages 8 and up. Free

Join the Organization for Bat Conservation for an evening about bats. Meet live bats from around the world up close and personal and learn how they are important to your backyard and the food you eat. Participate in activities, crafts, and bat house building. End the evening at sunset with a walking tour along the woods and trails around the LSNC grounds in search of native bats. The echolocation demonstration will amaze and delight.

We'll need to be extra-quiet so that we can listen for the bats. That's why ***this program is recommended for ages 8 and up.***

Sponsored by Critter Catchers, Inc.: <http://www.crittercatchersinc.com> (<http://www.crittercatchersinc.com/>)
